

DOWNTOWN DESIGN AWARDS

Nominations Requested

The Downtown Improvement District seeks nominations for the first of what we expect to be an annual recognition of superior design, for downtown projects recently completed. This year's awards will cover projects that have been completed or installed since January 2008; thereafter, recognition will be on an annual basis.

Awards will be for projects located within the 91-block Downtown Improvement District. Projects will be considered in three categories:

- » *Architecture*
- » *Landscape*
- » *Signs / Graphics*

The Downtown Improvement District is joining with two partners: the local chapter of the American Institute of Architects, and ARCH (Architecture and Community Heritage, Inc.) to present design and preservation awards at a combined celebration and reception to take place on November 11. Further details of the event will be announced shortly.

The overall goal for the three organizations is to celebrate, and to encourage, community achievements based upon good design principles.

Please submit your downtown entry with a photo (digital) and paragraph describing the design merits of the completed project, to

Justin Stalter
justin@downtownfortwayne.com

Deadline for submissions is October 28, 2009
